

Join the Bridge!

The Navy League Honolulu Council would like to extend an invitation for you to join our Bridge membership program. We have full of enriching, enlightening, and enjoyable events planned. You won't want to miss them!

We continually strive to provide Bridge members with unique and intriguing experiences. Our Bridge program has increased in quality and stature over the past year. Some of our events include trips to the Red Hill fuel tanks (an engineering wonder), PACOM headquarters visits for a briefing the Admiral, or joining the Secretary of the Navy for breakfast, our Bridge members are always invited to participate in these rewarding and educational experiences.

In addition to these events, we have had some tremendous speakers that share their insights with us at meetings. For example, Congressman Neil Abercrombie spoke to us about securing funds for military construction; U.S. Senator John McCain gave his opinions regarding the qualities of being an officer and a gentleman; Allen Doane talked to us about the challenges of operating a merchant marine fleet (Matson) in this day and age; Lt.General 'Chip' Gregson spoke on the war on terrorism and how the Navy Marine Corps team is addressing this issue. In addition, various Flag Officers, from each branch of the service, have shared their respective points of view regarding DOD policy and how that affects our Sea Services.

All in all, the ability to listen and interact with such leaders in an intimate setting is what really makes the 'Bridge' special.

I believe you are a community leader. As such, your membership and participation in the 'Bridge' is vital to our organization. Therefore, I am personally asking you to join the Navy League Bridge today. I promise you will have an enjoyable and patriotic experience!

With Much Aloha,

Bob McDermott
Executive Director
Navy League of the United States – Honolulu Council
